

March 6, 2013

Dear Sir/Madam,

It is with the utmost satisfaction that I write this letter of recommendation for Isaac Bonilla. Isaac was employed by KBS+ Spies and Assassins as a Flash and Actionscript developer from 2011 -2013, directly reporting to myself. Isaac was responsible for the development of interactive media while in our employ ranging from standard display to complex rich media applications.

Isaac is very knowledgeable of the industry and its nuisances, and is able to apply this knowledge to his work in an accurate and efficient manner. He is very able when it comes to learning new code and API's and is very much a self-starter when it comes to learning new skills. He could be trusted to follow thought on a project from inception to completion and follows up on his work. Isaac is a good team player and very personable.

Isaac would be a fantastic resource for any position that could utilize his skillset. I recommend him highly and would happily provide more information upon request.

Sincerely,

A handwritten signature in black ink, appearing to read 'Fred Ehrhart', with a stylized flourish at the end.

Fred Ehrhart
Digital Studio Manager / Senior Interactive Producer
